EnviroPro Series

300115 27" EnviroPro
300116 27" EnviroPro WB

The EnviroPro Series Burnishers are ideal for achieving optimum shine on concrete and other surfaces using black or diamond impregnated pads. The weighted EnviroPro increases floor temperature during burnishing to raise the gloss level, and its passive dust collection system traps and filters dust through a unique shroud design. This dust collection system also comes equipped with a 2" external vacuum port for heavier dust collection. The EnviroPro Series comes in the 27" deck with a Kawasaki engine and with or without a 15 pound deck weight.

FEATURES

- Weighted metal pad driver
- Infrared thermometer
- Available with weighted deck for additional head pressure
- Dust collection system
- EAGLE ProCarb™ carburetor & E-Zero™ emissions shutdown
- Engine kill switch
- Exceeds EPA & CARB standards
- Aluminum tank
- Kawasaki FS481V Engine
- 2-Year Warranty

TECH SPECS

- Production: 33,000 ft² / 3,065 m² per hour
- Total Weight: 350 pounds / 159 kg
- Engine Speed: 3,600 rpm maximum
- Pad Speed: 1,800 RPM

Increased floor temperature during burnishing allows the EnviroPro to achieve optimum shine and gloss
